LinkedIn | ORCID 0009-0000-2170-7310

RESEARCH PROFILE

I study how AI is reshaping knowledge creation and decision-making in research and learning communities. My work draws on data analytics, social network analysis, and mixed methods, and I am developing computational and agent-based modeling approaches to human-AI systems.

Research interests: AI-mediated knowledge systems; human-AI collaboration; trust and verification; collective intelligence; knowledge diffusion; scientific integrity; computational social science

EDUCATION

Doctor of Philosophy in Computing, Data Science Emphasis 2026-Present
Boise State University, Boise, Idaho

Graduate Certificate in Human-Environment Systems 2026-Present
Boise State University, Boise, Idaho

Master of Arts in Anthropology 2024
Boise State University, Boise, Idaho

Bachelor of Science in Biology, Ecology, Evolution, and Behavior Emphasis 2021
Boise State University, Boise, Idaho | Summa Cum Laude

Associate of Science Degrees in Biology, Chemistry, and Psychology 2020
Salt Lake Community College, Salt Lake City, Utah | High Honors

RESEARCH METHODS AND TECHNICAL SKILLS

Research methods: social network analysis; exponential random graph models (ERGMs); survey design; semi-structured interviews; focus groups; thematic analysis; mixed methods; exploratory psychometric analysis

Data and research computing: R; RStudio; Qualtrics; Quarto; R Markdown; Git; GitHub; data visualization; reproducible PDF and HTML reporting; HTML/CSS; LaTeX

RESEARCH EXPERIENCE

NSF RISE Research Trainee | Boise State University 2026-Present

- Selected for a one-year NSF Research Traineeship supporting doctoral research and interdisciplinary training in responsible innovation, stakeholder engagement, and the societal impacts of AI.
- Participate in RISE coursework, bootcamp, roundtables, and Social Impacts of Computing activities focused on human values and human flourishing.

Research Analyst | Social Impacts of Computing Workshop Evaluation 2025-Present
Boise State University, School of Computing

- Analyzed registration, attendance, pre-workshop responses, post-workshop feedback, and participant-generated notes from a 71-participant cross-sector workshop.
- Used thematic and network analysis to examine how participants connected values and concerns, producing a public event summary, value-network analysis, and recommendations for future programming.
- Preparing a comparable evaluation of the September 2026 workshop to examine changes in participant priorities and experiences over time.

Data Analyst | Office of the Provost June 2024-August 2026
Boise State University | Acting on Data to Advance Teaching and Student Success

- Created dynamic PDF and HTML planning reports, visualizations, descriptive statistics, and reproducibility documentation for internal student-success analysis.
- Used R, R Markdown, JavaScript, HTML, and LaTeX in reproducible reporting workflows.

Data Analyst | AI Institute for Teaching and Learning Evaluation 2025
Boise State University, College for the Digital Future

- Helped design an IRB-approved mixed-methods evaluation of a three-day faculty-development institute and develop pre- and post-institute surveys informed by the UNESCO AI Competency Framework for Teachers.
- Analyzed registration, survey, observation, and focus-group data, including exploratory reliability, dimensionality, item-redundancy, and composite-measure analyses.
- Documented findings in an internal report and contributed to a white paper and AAC&U presentation.

Data Analyst and Research Collaborator | AIROE 2024-2025
Boise State University | AI in Research Optimized Ethically

- Contributed to team formation, research design, internal and NSF proposal writing, project planning, and undergraduate research mentoring.
- Transcribed and thematically analyzed semi-structured faculty interviews about generative AI, research practices, values, and concerns, then contributed to reporting and presentations.

Research Assistant | Department of Research and Economic Development 2022-2024
Boise State University | Social Network Analysis Project

- Analyzed collaboration networks using whole-network measures and ERGMs, alongside survey data and semi-structured interviews.
- Created reproducible R Markdown documentation, network visualizations, descriptive tables, and GitHub-based project records.

Research Intern | The Peregrine Fund 2020-2021
World Center for Birds of Prey, Boise, Idaho

- Digitized and documented historical Mountain Bluebird research records and contributed to research reporting.

Research Team Member | Idaho Institute for Human-Centered AI 2025-Present
Community-engaged inquiry into AI impacts, humanistic values, and well-being

PUBLICATIONS AND THESIS

Forthcoming Book Chapter

Gaudio, L., & Ziker, J. P. (forthcoming). *The social ecology of food-sharing in the Arctic.* In Arctic Anthropology Handbook. Springer.

Peer-Reviewed Journal Article

Gaudio, L., Larson, A., Dunn, L., & McClure, C. J. W. (2023). *Temperature changes are associated with the breeding phenology of Mountain Bluebirds (Sialia currucoides) in southern Idaho.* The Wilson Journal of Ornithology, 135(3), 420-425.

Master's Thesis

Gaudio, E. L. (2024). *The dawn of advanced collaborative practices: Charting transdisciplinary synergies through thematic and social network analysis within Boise State's Grand Challenges initiative.* Boise State University Theses and Dissertations.

FELLOWSHIPS, GRANTS, AND AWARDS

RISE NSF Research Traineeship | Funded Trainee 2026-2027
Boise State University | One-year $37,000 stipend plus tuition, health insurance, travel, and professional-development support

Humanities and Social Sciences Initiative Grant | I2HCAI | $4,000 2025-2026
Boise State University | Collaborative project award

Scholarship of Teaching and Learning Grant | $1,000 2025-2026
Boise State University, Center for Teaching and Learning | Grant recipient

Gem Transfer Scholarship | $15,000 per year 2020-2021
Boise State University

Impact Fund Scholarship | Full tuition 2019-2020
Salt Lake Community College

Costa Rica Study Abroad Scholarship | $500 2020
Salt Lake Community College

TEACHING EXPERIENCE

Adjunct Instructor | Department of Anthropology 2025-Present
Boise State University | DATA-R155: Introduction to R Programming

- Redesigned a compressed, specifications-graded introductory R course around explainable code, reproducible workflows, student choice, and guided approaches to learning with AI.
- Authored a public living OER and built the Canvas learning environment, including applied R activities, assessments, self-regulated learning routines, and transparent AI-use practices.
- Developed an IRB-approved Scholarship of Teaching and Learning study of course performance, student experience, learning practices, and progression into later R coursework.

Teaching Assistant | Department of Anthropology 2022
Boise State University | University Foundations: Love, Sex, and Evolution

SELECTED PRESENTATIONS AND WORKSHOPS

Gaudio, L. (2026, May 7). *Beyond boundaries: Map interdisciplinary networks* [Workshop presentation]. CRCA Beyond Boundaries: Network Mapping and Mobilization, Boise State University.

Arispe, K., Gaudio, L., & Blomquist, J. (2026, April 16-18). *Deshaming AI in education: Practicing courageous care in faculty AI development* [Theory-to-practice session]. AAC&U Conference on Learning and Student Success, Tucson, Arizona. *Presentation developed collaboratively and delivered by J. Blomquist.*

Gaudio, L. (2026, April 10). *Designing for productive learning struggles with AI* [Lightning talk]. Innovate Idaho 2026: AI & Open Education Symposium (virtual).

Gaudio, L. (2026, March 27). *Redesigning DATA-R155 for the AI era* [Poster]. Great Ideas for Teaching and Learning Summit, Boise State University, Boise, Idaho.

Gaudio, L., & Shimel, M. (2025, June 10). *Using AI ethically: Aligning values and attribution in writing* [Staff AI Brownbag presentation]. Learning Technology Solutions, Boise State University.

Gaudio, L. (2025, April 13). *Ethics in AI* [Graduate and postdoctoral workshop]. Think BIG! Boise State University.

Jobe, A., Winters, N., Gaudio, E. L., & Hillis, V. (2025, April 3). *Bridging ethical divides: Investigating disciplinary values in the adoption of generative AI in research* [Symposium presentation]. Innovate Idaho: Teaching and Learning with AI Symposium.

Gaudio, L. (2024, October 18). *OHRP's workshop: The evolving landscape of human research with AI* [Invited discussion]. AI Brown Bag Discussions, Boise State University.

LEADERSHIP AND SERVICE

Committee Member | Adjunct Faculty Advisory Committee (AAC) 2026-Present
Boise State University, Provost Office

Planning and Evaluation Team Member | Social Impacts of Computing 2024-2026
Boise State University, School of Computing

Member | AI in Research and Scholarship 2024-2025
Boise State University, Division of Research and Economic Development

Graduate Ambassador 2023-2024
Boise State University, Graduate College

Graduate Student Mentor | Graduate Peer Support 2023
Boise State University, Graduate College

Financial Officer | Lambda Alpha 2023-2024
Boise State University

PROFESSIONAL DEVELOPMENT AND CERTIFICATES

Intermediate Online Teaching | eCampus Center, Boise State University February 2026

Basic Online Teaching | eCampus Center, Boise State University November 2024

Hands-on Training in Applied AI and Machine Learning | Idaho State University November 2024

Teaching and Learning in Higher Education | Boise State University August 2023
